Keynote Speaker

Manfred Klein

MA Klein and Associates

AGM

- Annual Report 2017
- Financials
- 2019 Board Nominations
- Welcome from incoming Chair

Clean and Reliable Gas Turbine Energy Systems

An overview of the basics of gas turbine energy systems and how they can help to achieve energy and environmental objectives, with some examples in commercial and industrial applications across Canada. Solutions to air emissions for efficient and clean natural gas systems, working together with renewable energy, can be developed for cost-effective long term energy diversity and resilience.

\$20 A&WMA members / \$30 non-members

\$10 A&WMA student members / \$20 student non-members

* No cost for A&WMA Members attending the A&WMA-OVC AGM only
