

Ontario Air and Noise Best Practices Topics

Updated October 14, 2010

Table 1 - Best Practices Topics to be Completed

	Topic	Comments
1	Standards List	Excel Spreadsheet with MOE Standards, Guidelines and JSLs.

Table 2 – In Progress Best Practices Topics

	Topic	Comments	Status
1	Including conceptual noise control measures in Acoustic Assessment Reports	How to meet NPC Guideline requirements to show that facility can meet Noise limits prior to the development of a detailed noise action abatement plan.	Amir - Dillon Consulting
2	Cooling Towers	Level of documentation.	Sarah – Suncor Modernization may remove an aspect but BMP to focus on fogging/icing and industrialization
3	Hex Chrom from Welding	To provide guidance on how to calculate hexavalent chromium emissions from welding	Sandy Willis - Senes

Table 3 - Completed Best Practices Topics

	Version Number	Topic	Comments	For further information on this Best Practice contact
1	1.0	Automotive Paint Spray Booths	Simplify process for CofA application for automotive paint spray booths	SRU Duty Officers 1-800-461-6290
2	1.0	Joint Facilities	How to handle sites with multiple operations/ Companies s.4 documentation	Best Practices Committee
3	1.1	Application Priority	What kind of projects are a priority for the MOE?	EAAB Air/Noise Duty Officers 1-800-461-6290
4	1.2	Vapour Emissions from a Solvent Waste Storage Tank	How to calculate emissions from waste solvent tanks	Harvey Watson, DJA Environmental Consultants Inc. dja@djaenv.com
5	1.1	Submission of e-copies of Materials	What electronic files should be included with an application to make the review easier	Best Practices Committee
6	1.2	Consistency in Equipment Descriptions	What is the level of detail required when applying for a specific piece of equipment?	Best Practices Committee
7	1.0	Landfill Gas	Follow the ACME guidance	EAAB Air/Noise Duty Officers 1-800-461-6290
8	1.0	O.Reg.346 Application	Follow the ACME guidance	EAAB Air/Noise Duty Officers 1-800-461-6290
9	1.1	Electronic File Submission for AERMOD Dispersion Modelling	What folder structure and electronic modelling files must be submitted with an Emission Summary and Dispersion Modelling Report or a Combined Modelling Monitoring	Darryl Chartrand, CH2M Hill Darryl.Chartrand@ch2m.com Mike Jammer, Golder Associates Ltd.

	Version Number	Topic	Comments	For further information on this Best Practice contact
			Assessment for the Ministry of the Environment to review	mjammer@golder.com
10	1.0	Credit Card Procedures – Confidentiality	How to maintain the confidentiality of credit card number through the application process?	BMPC – Sarah McQuaig
11	1.0	Minimum Documentation requirements for Flares	What documentation should be included?	RWDI – Brian Sulley Brian.Sulley@rwdi.com
12	1.0	Secondary Noise Screening	Describe how secondary noise screening process can be used.	CRA – Tim Wiens twiens@croworld.com
13	1.0	Application Tracking	How to track the status of your application? Understanding the Roles of Different EAAB Staff and submitting questions to EAAB Who is responsible for what? Who do you call when you have questions? Better process to check on progress as application moves through the system.	BMPC – Sarah McQuaig
14	1.0	Pre-Consultation	When to contact the local District Office?	BMPC – Sarah McQuaig
15	1.0	Fees for comprehensive renewals	What is appropriate fee for comprehensive renewals?	MOE /Sarah McQuaig
