

Ontario Air and Noise Best Practices

Topic	Application for Approval (Air & Noise) – Landfill Gas Collection and Control System	Date: June 2, 2009 Version 1.0
Purpose	To provide guidance on how to apply for s.9 approval for a Landfill Gas Collection and Control System	Page 1 of 1

When making an application for a landfill gas collection and control system practitioners should follow the “*Sample Application Package for an Air & Noise Certificate of Approval Including Acoustic Assessment Report - Landfill Gas Collection and Control System*” posted on the ministry website.

It provides an example of a complete application submission for an Air & Noise Certificate of Approval that includes the following:

- Supporting Information for a Maximum Ground Level Concentration Acceptability Request Supplement to Application for Approval, EPA S.9;
- Request Under s.20 (4) to Have Schedule 3 Standards Apply;
- Emission Summary and Dispersion Modelling Report that incorporates the use of the AERMOD dispersion model and a Fugitive Dust Management Practices Plan; and
- Acoustic Assessment Report using the CADNA model.

The link to the ministry website is as follows:
