

2012 Noise Conference

One of Ontario's Premier Environmental Education and Networking Events!
May 8, 2012 ♦ Four Points Sheraton Hotel ♦ Toronto Airport

AIR & WASTE MANAGEMENT
ASSOCIATION

Ontario Section

Topics and Presenters

You spoke and we listened! The Conference agenda grew out of your responses to the survey sent to AWMA-OS members last fall. We have assembled a team of the most experienced acoustical practitioners in Ontario to cover all of the key aspects of environmental and industrial noise, its regulation and control.

Overview of Existing NPC Noise Guidelines

Dr. Ramani Ramakrishnan, Aiolos Engineering & Ryerson University

NPC-300: Technical Changes Introduced by the Draft Guideline

Dr. Al Lightstone, Valcoustics Canada Limited

NPC-300: Legal Implications of the Draft Guideline

John Georgakopoulos, Willms & Shier Environmental Lawyers

Vibration: Criteria, Standards, Methods

Bob Rimrott, Aercoustics Engineering Limited

Wind Turbine Noise: Recap of Current Trends

Brian Howe, HGC Engineering

Noise Control Case Studies

Tim Wiens, Conestoga Rovers Associates

Occupational Noise: Primer & Legal Responsibilities

Tim Kelsall, Hatch

Advances in Sound & Vibration Instrumentation

Dr. Werner Richarz, Echologics Engineering

Road Traffic Noise Modeling: Future Trends in Ontario

Scott Penton, Novus Environmental

Combined/Joint Assessments of Embedded or Adjacent Facilities

Corey Kinart, HGC Engineering
